

JESUS

"Now go out where it is deeper, and let down your nets to catch some fish."

SIMON PETER

⁵ "Master,"

THE NARRATOR

Simon replied,

SIMON PETER

"we worked hard all last night and didn't catch a thing. But if you say so, I'll let the nets down again."

LUKE 5:4-5 · STORY 287 OF 365 · RENDERED FROM THE APP

Everyone in the room has a **part.**

A Bible reading app that sets Scripture out as the conversation it already is. Four source colours, four readers, and a complete story your class can read out loud inside one chapel period.

READING PLANS
AND CHALLENGES

For schools, chapels and student small groups

iOS and Android · English and French · New Living Translation

sourceviewbible@gmail.com

Tauranga, New Zealand

A class disengages the moment it cannot tell who is speaking.

Open a printed Bible at the valley of Elah and the words of God, of Goliath and of a terrified army all arrive in the same black type. Reading aloud becomes a chore nobody volunteers for.

SourceView Together colours every word by the voice that said it: **774 voices across 365 stories**, in four colours.

THE FOUR COLOURS A CLASS HANDS OUT

The Narrator Sets the scene | 4 voices

God speaking God, Jesus, Spirit | 5 voices

Main character The named figure | 90 voices

Everyone else Crowds and kings | 681 voices

HOW A CLASS READS A STORY

- 1 Open the same story.** Each student on their own device, or one device passed along a row. Nobody signs in and nothing needs setting up.
- 2 Take a colour.** Four readers, one colour each. You read your colour out loud when it comes round, and the layout tells you when that is.
- 3 Talk about it.** Four questions written for students sit at the end of every story, ready to go.

Timing. Stories run 2 to 14 minutes of reading, about 10 for most. Allow fifteen to twenty for a group reading aloud with the questions afterwards, which is a chapel slot or the back half of a period.

Calling, Healing & Teaching

LUKE 5 · 10 MIN

JESUS

“Now go out where it is deeper, and let down your nets to catch some fish.”

SIMON PETER

“Master,”

THE NARRATOR

Simon replied,

SIMON PETER

“we worked hard all last night and didn’t catch a thing. But if you say so, I’ll let the nets down again.”

LATER IN THE SAME STORY · LUKE 5:12

A LEPER

“if you are willing, you can heal me and make me clean.”

Who does the talking in this story

Set from the app's own text and colours. Narration and divine speech sit left, everyone else right, so the shape of a conversation is visible before a word is read.

ON THE PHONE

Five tabs, and a school only needs four of them. **Read** holds the year as one thread, so the whole Bible sits on a screen. **Cast** keeps every voice a student has heard. **Saved** holds the lines they reacted to.

READ
The year on one thread

THE READER
A story in four colours

PLAN
Pick one, or build one

TALK ABOUT IT
Four questions, three sets

One story, three sets of questions.

Every story ends with four questions, written three times over for three different rooms.

Below is story one, **God Creates**, in all three.

FOR SCHOOLS

School

Middle and high school. Aimed at how a student sees the corridor on Monday.

- 1 What patterns or repeated words did you notice while reading?
- 2 What does this passage suggest about God's character?
- 3 How might this shape how you view people at school?
- 4 What is one way you can reflect God's care this week?

FOR FAMILIES

Family

Younger readers at the table. Shorter, plainer, asked as "we".

- 1 What words did you hear again and again?
- 2 What does this show about God?
- 3 How should we treat people God made?
- 4 What kind action will we do this week?

FOR SMALL GROUPS

Small group

Older students and staff. Room for a longer answer.

- 1 What patterns or repeated words did you notice in the passage?
- 2 What does the text suggest about God's character and purposes?
- 3 How could this view of creation shape how we treat people and our work this week?
- 4 What one concrete action will you take to honor God's design (at work, home, or city) this week?

SCHOOL QUESTIONS FROM ELSEWHERE IN THE YEAR

Where do you see pride or exclusion in your school?

THE TOWER

How would life at school look if these shaped the culture?

THE TEN COMMANDMENTS

What wise boundary will you try this week?

PEOPLE SIN

03 THE PLANS

Built to fit a term, not a calendar year.

PLAN	FITS	LENGTH
Bible in 1 School Year	A full academic year	180 STORIES
New Testament in 100 days	One semester	127 STORIES
The Gospels	A term, or Easter	46 STORIES
God's Story: The Good News	Orientation week	7 STORIES

15 plans and challenges ship with the app, Advent and Lent among them. A class can also build its own from any stories it likes.

Progress carries across a break, so a plan survives the holidays, and a student who joins in week six starts where the class is.

TERM ONE OF BIBLE IN 1 SCHOOL YEAR, AS IT ACTUALLY FALLS

1	God Creates	Gen 1:1-2:25	6 min	5	Abraham Obeys God's Call	Gen 11:27-14:24	8 min
2	People Sin	Gen 3:1-5:32	8 min	6	God Makes a Covenant with Abraham	Gen 15:1-18:15	9 min
3	The Flood	Gen 6:1-9:29	10 min	7	Sodom & Gomorrah	Gen 18:16-19:38	7 min
4	The Tower	Gen 10:1-11:26	5 min	8	Abraham's Faith Tested	Gen 20:1-23:20	10 min

Three ways schools use it.

Chapel

Four readers on stage with the story on their phones, the rest of the year level following on theirs. Rotate the colours weekly so the reading is never the same four students. Senior students can run it for junior grades without a staff member scripting it.

Small groups

A group of four is exactly the shape of the app. One story, one colour each, then the school questions. It works in a form room at lunch, in a boarding house after dinner, or with staff before the day starts.

Classroom

Religious education, character or ethics. The colours make the source of a claim visible, which is a useful habit well beyond this text. Set a story as reading, then run the discussion questions in class.

05 WHAT A SCHOOL IS AGREEING TO

Nothing about a student leaves their device.

There are no accounts to create, so there is no student roll to hand over and no password for a fourteen year old to forget. A phone that never had the app can be handed to a student and used inside a minute.

WHAT A DEVICE NEEDS

Apple	iOS 16.4 or later
Android	Android 8 or later
Tablets	Supported on both
Network	Download, then offline

- **No accounts, no sign-in, no email address.** A student opens the app and reads.
- **No advertising and no in-app purchases.** The app is free, and free is the whole model.
- **No behavioural analytics.** Progress, notes and reactions are written to a database on the phone and stay there.
- **Works offline.** Useful on camp, on a bus, and in a hall where the wifi gives up.
- **Optional reminders** are scheduled by the phone itself. No notification server, no tokens leaving the device.
- **English and French**, both offline, for a bilingual or immersion setting.

Crash reports may be sent if the app fails. They carry the device model and the error, never notes, reactions or reading history.

Try it with one group of eight before you take it to a staff meeting.

Download it, hand four colours to four students, and read one story. That is the whole trial, and it takes a lunchtime. If it works, I will help you plan the term or the year around it, at no cost. **Book a setup call and we will map it to your chapel calendar.**
